

Understanding Student Portfolios

- Log on to www.stockmarketgame.org using your teacher/adviser username & password.
- Scroll down and click on: **Understanding Portfolios**, located under, Just getting started

Click on the section you would like to review.

Understanding Portfolios

For your students to get the most from their Stock Market Game (SMG) experience, they should be familiar with the various functions available to them in their online team portfolios.

Please click the link for the section you would like to view:

Reading Portfolio Pages - Provides a description of the functionality available through the Portfolio dropdown menu in the SMG team portfolio.

Resources - Provides a description of the functionality and research links available in the Resources section of the SMG team portfolio.

Entering a Trade - Takes you through the process for trading stocks, mutual funds, and bonds in the SMG team portfolio.

There are several important links available on the student portfolio pages. Click on the menu bar to view each link.
